# WHO WE ARE

WE - COPPICE DESIGN - are a combination of various professional and tremendous experiences that have come along under one umbrella, which brings a definite art-working style in regards to the WPC invasion to the Egyptian designs of wooden arts, in order to develop the real estate industries' visions.

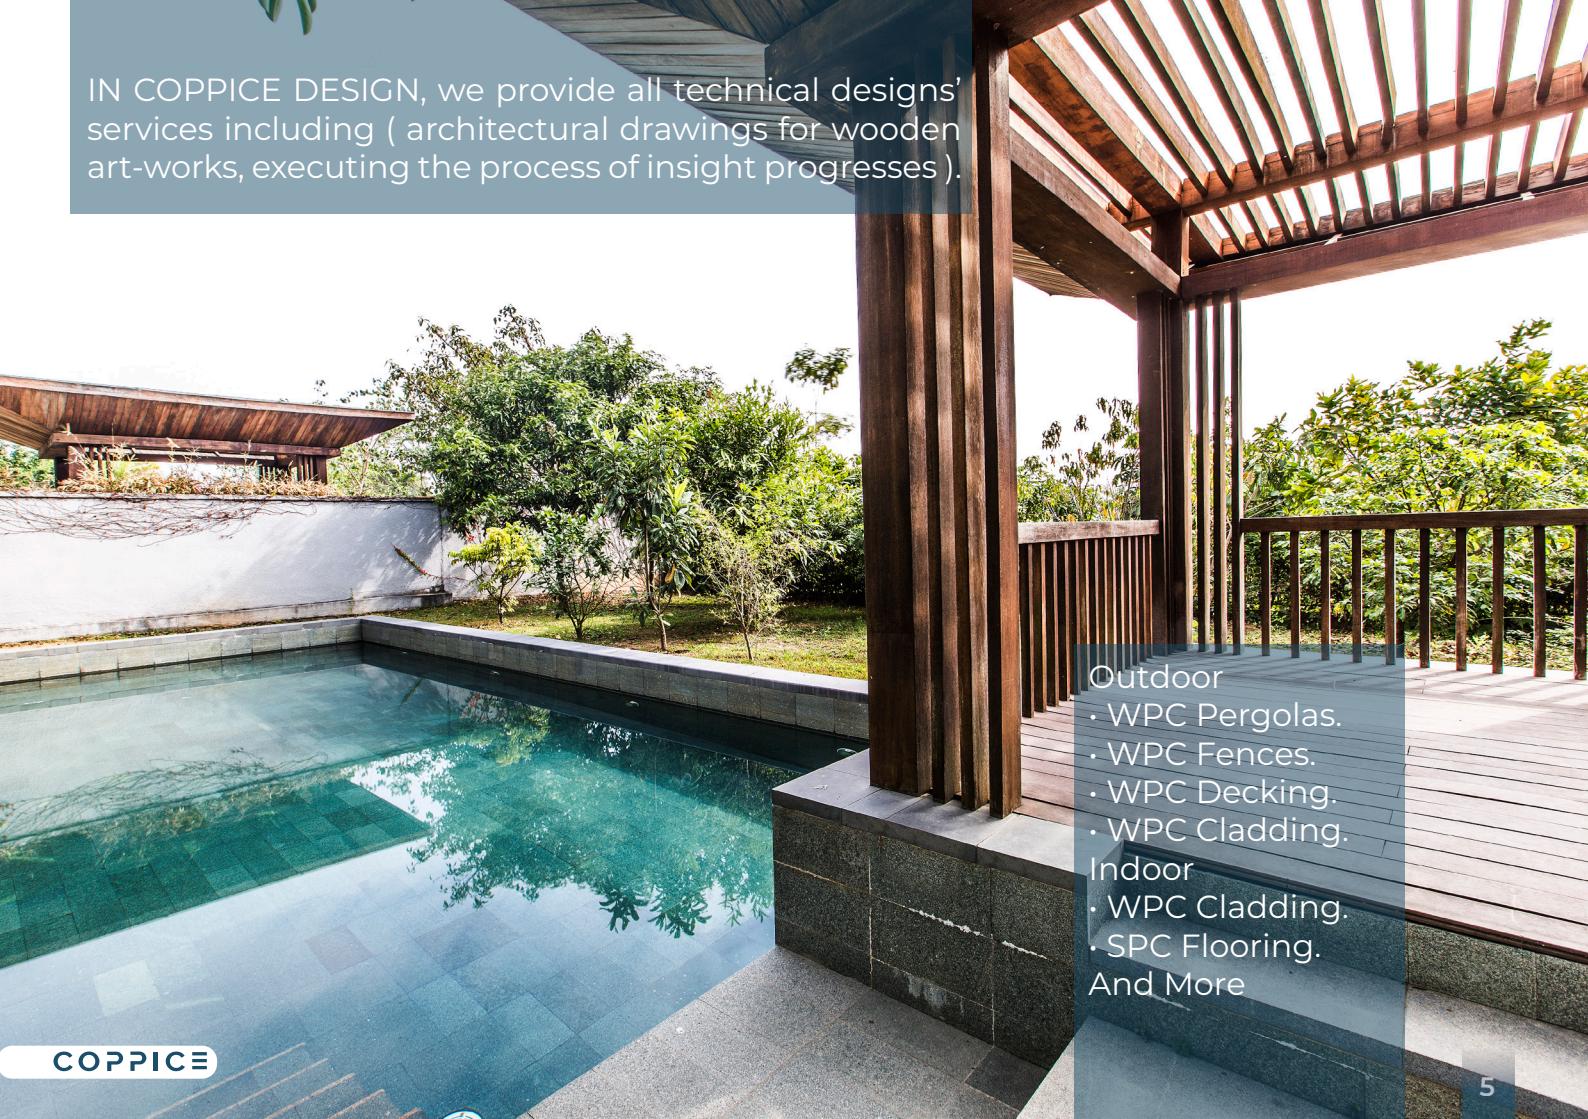

A photograph of a modern fireplace. The fire is lit in the front, showing bright orange and yellow flames against a dark background. Behind the fire, there is a wall made of vertical dark wood planks with prominent grain patterns. In the foreground, a portion of a light-colored sofa is visible.

Our used materials are counted as the most natural resisting ones for all natures' rough circumstances, such as WPC & high-valued natural woods.
